

PDO - Philharmonic Doctors Opera

Background

For the first time ever in history a complete Doctors-Healers-Opera-Company has been founded with about 100 participants from about 15 countries. They join for a beneficial project (for www.BeatoCello.ch) and perform Mozart's Magic Flute from July 23rd to 25th in the beautiful barock Wilhelma-Theatre in Stuttgart/Germany. It is extraordinary that every position of our production is covered with healers: direction, stage decoration, costumes, mask, light, conductors, singers, choir and orchestra! We are supporting the unique humanitarian work of Dr. Beat Richner in Cambodia who is building the 7th mother-child hospital.

Magic Flute - Zauberflöte

As a first project Mozart's Magic Flute was chosen with its initiation process beginning with "fire and water" in an exciting direction concept. It is integrated in the mystic world of egyptian high culture and contains some healing aspects. The priests use some old energy healing rituals. The pure love between Tamino and Pamina must pass several "exams" and is opponent to the more human side of love between Papageno and Papagena. The fight for power between Sarastro and the Queen of the Night is representative for all types of power fights between justice and injustice, good and bad, male and female and it will be dissolved. There are no winners and losers! We offer a new vision: Sarastro overcomes his defensiveness and opens his heart for reconciliation. The Queen of the Night goes through a syncope - a small death which changes her attitude and prepares her to transform darkness inside herself. So she can drop her proudness and accept the hand of Sarastro. In this way she gets integrated and the 3 ladies follow her with the final choir: "Strength was victorious..." which means the strenght of the hearts - the only power which makes possible to release induration and to reconcile. "...and crowned as a reward, beauty and wisdom, with an eternal crown". The material crowns have been taken off, the fight is terminated and they find together under the eternal crown. The librettist Emanuel Schikaneder has also written a "Magic Flute 2" where the initiation proceeds with "earth and wind", the music was composed by Peter von Winter and performed in 1798 with a sensational 77 performances for that time. The material got lost and was re-discovered after the fall of the Berlin Wall by Manfred App. Perform as double-pack in 2011 would be a music-historical sensation.
